REFRIGERATION EQUIPMENT

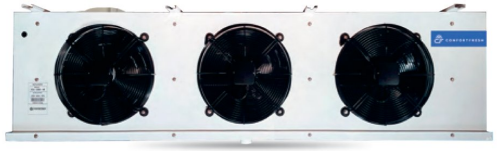

Aplications

Condensing Units

Cubic Evaporators

Power & Control Electrical Panels

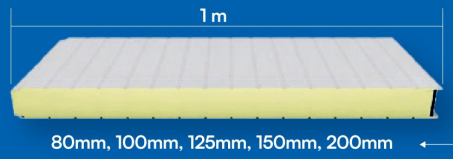

Features

- LED Lighting
- Energy Saving
- Easy Installation
- MT / LT Temperature Range

COLD ROOMS

- Tongue-and-groove interlocking system.
- Pre-painted galvanized steel finish.
- High-density thermal insulation for cold room construction.

Kingspan

COMPONENTS FOR REFRIGERATION

Suction Accumulator

Oil Separator

Solenoid Valve

Axial Fan

Dual Pressure Switch

Receiver Tank

Thermofilm

Expansion Valve

Compressor Invotech

We offer a complete line of refrigeration components: valves, filters, fans, and more. Everything your refrigeration system needs, all in one place.

CUSTOM-MADE MANUFACTURING

We offer a new line of custom-built evaporator and condenser coils for Industrial Refrigeration, manufactured to meet the exact requirements of your project.

COILS

Evaporators

Condensers

- Blue Fin aluminum fins.
- Mechanically expanded copper tubing.
- Galvanized steel support structure and casing.
